### **Next generation Platform “AXESS CREA Advance”**

---

---

AXESS International Network Inc. announces a major expansion and upgrade of its ticketing reservation system “AXESS CREA” and will start offering the “AXESS CREA Advance” from early 2017. The new system is expected to be a major and positive contribution to the airfare distribution industry.

In October 2013, AXESS launched the migration to its new hosting system and completed the process by April 2014. This was carried out in close cooperation with both airlines and travel agencies and at the world class service standard guaranteed by AXESS. The Company is now moving into its next phase of growth as the leading player in Japan with an upgrade of its travel agency ticketing reservation system. The brand new system, which has been called “AXESS CREA Advance” successfully merges both local and global travel booking expertise into one system and will enable the airline industry to increase revenues boding well for the future of air travel. AXESS is partnering Travelport for this project.

#### **<Features of “AXESS CREA Advance”>**

##### **Smart intuitive operation in a point & click environment**

- Providing an easy and user-friendly operational interface for travel agents

##### **Rich Content and Branding**

- Showcases fare families, branded fares and ancillary services by using rich imagery, simple icons and persuasive textual descriptions.
- increases revenue by upselling fares

##### **One stop Solution**

- makes it easier to sell all airline content.

AXESS remains committed to providing reliable, high quality operational systems and services from our customers, utilizing the extensive experience and leading technology that we have acquired in Japan. AXESS appreciates the industry's continued support and patronage.
